

AI-Visibility Report Email

Visual design and copy for a personalized outreach email. Product name, brand identity, and sender details have been genericized for portfolio use; the layout, message structure, and copy are as originally written and designed.

Subject: Your visibility report is ready

Your Report is Ready

Showing you exactly where your business is invisible to AI search.

[View Report](#)

Hi [First Name],

Great connecting at the event today. I ran a complimentary AI-visibility audit on [company.com] before sending this. It's attached, and it shows exactly where your business is invisible to AI search right now.

[Pages found] AI-invisible pages | [Engines checked] AI engines checked | [Count] competitors showing up instead

Most businesses don't know they have this gap: pages that rank on Google and drive real traffic but vanish completely when someone asks an AI assistant for a recommendation in their space.

Start with the number at the top. That's how many invisible pages we found. The highlighted pages are your highest-priority fixes.

Happy to walk you through exactly what to do about it in 30 minutes.

Looking forward to the conversation.

Prospecting

Finds the right buyers and starts thoughtful LinkedIn conversations.

AI Visibility

Helps AI search and chat assistants understand, trust, and recommend your business.

Conversion

Improves your website so more visitors become calls, bookings, and leads.
